SUMMARY:

Full Stack Developer skilled in **Next.js**, **React**, **React Native**, **TypeScript**, **Node.js**, and **Tailwind CSS**. I'm confident in building both **web** and **mobile** applications, integrating APIs, and writing clean, maintainable code. I enjoy solving real-world problems through intuitive design and efficient development. I'm currently looking for a full-time opportunity where I can contribute to meaningful projects and continue growing as a developer.

TECHNICAL SKILLS:

- **Frontend** - HTML5, CSS3, JavaScript, React.js, Redux, Next.js
- **Backend** - Node.js, Express.js
- **Mobile Development** - React Native, Expo
- **Database** - MongoDB, Postgresql
- **UI Framework** - Tailwindcss, Bootstrap, ShadcnUI

WORK EXPERIENCE

Bloom IT Solutions | Full Stack Developer (Mobile & Web)   September 2025 – Present

- Full-cycle development and deployment of scalable **mobile/web** applications.
- Developing complex web frontend with **React & Next.js**, focusing on state management, SSR, and component architecture.
- Backend development and RESTful API construction using **Node.js & Express**, integrating with **MongoDB**.
- Collaborating with cross-functional teams; participating in code reviews to ensure quality.
- Utilizing **Tailwind CSS** for rapid UI development.
- Implementing unified mobile solutions using **React Native & Expo.**

Full Stack Developer Intern (Mobile & Web)   16 June 2025 – September 2025

- Built core web frontend modules using modern React functional components and hooks, integrating with internal APIs.
- Gained experience in setting up and managing Next.js environments (routing/data fetching).
- Contributed to backend development by implementing/modifying API endpoints with Node.js and Express.
- Assisted in MongoDB schema design and data modeling.
- Participated in agile methodologies (stand-ups, sprint planning).
- Implemented responsive design using CSS and introductory Tailwind CSS.

PROJECTS:

Paydoz (Freelance Project)   October 2024 – May 2025

Tech Stack: Next.js, TypeScript, Tailwind CSS, Redux Toolkit

- Paydoz is a financial insights platform that provides details on over 3M+ companies and 5M+ directors in India, covering compliance, GST information, and director details.
- Developed interactive and responsive UI components using Next.js, Tailwind CSS, and TypeScript.
- Integrated APIs to fetch and display real-time company and director data.
- Optimized UI performance, ensuring a smooth user experience.

BookWise – University Library Management System

Tech Stack: Next.js, TypeScript, Drizzle ORM, PostgreSQL, Auth.js, Resend, Tailwind CSS.

BookWise is a modern library management platform designed for universities, offering seamless experiences for both users and administrators.

- Built a complete **user dashboard** with features like book discovery, borrowing requests, and personalized interactions.

- Implemented a fully functional **admin panel** to manage books, approve/reject user registrations, handle borrowing requests, edit/delete book records and other things.
- Integrated **authentication with Auth.js** and implemented **role-based access** for users and admins.
- Enabled real-time book search with filters by title, genre, and author, along with pagination and caching (client & server-side) for performance optimization.
- Used **Resend** to send transactional emails (e.g., account approvals and request updates).
- Leveraged **Drizzle ORM and PostgreSQL** for efficient database management and query handling.
- Used **TanStack Query** for efficient data fetching and **Redis (Upstash)** for rate limiting and caching.

Forever - E-commerce Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Razorpay, Stripe, Cloudinary, Mongoose

- Architected a comprehensive MERN stack e-commerce platform with distinct frontend, admin panel, and backend components, enabling seamless product management and user transactions.

EDUCATION:

Vinoba Bhave University, Hazaribag | Master of Computer Application(**MCA**) **|** Sep 2022 to Oct 2024
